Quality Stainless Steel Solar Water Heating

By combining the quality of a stainless steel tank with the performance of the FPC solar collector system, Thermic has now produced a roof-top thermosiphon solar water heater second to none and affordably priced for all Australian homes. This quality extends to the roof top mounting system constructed from Aluminium and stainless steel making the product ideal for coastal and non-frost applications.

FEATURES AND BENEFITS

- SUS316L Stainless Steel Tank and outer shell
- Designed specifically for harsh Australian conditions
- Stainless steel and aluminium roof top mounting frame – ideal for coastal areas
- High performance solar collectors with toughened glass to resist hail and other falling objects
- 7 Year tank and collector warranty (limited)
- Fully approved to Australian Standards
- 35 STC's for both models in Zone 3
